SOLUTION OVERVIEW

@CooperteamSoftware

@Cooperteam_sas

Crossware Mail Signature gives you complete control over your company email signatures. Design an attractive and professional email signature and ensure that it is included on every email leaving your company, even those sent from mobile devices!

Use our software to manage your business email signatures on **Microsoft Office 365, Exchange & Notes Domino**.

EMAIL BRANDING

Include your company's branding and correct personal details on every email.

EMAIL DISCLAIMERS

Specify an email disclaimer to be appended to all emails leaving your company.

EMAIL ADVERTISING

Include targeted messages on every email. Create more opportunities.

MOBILE EMAIL SIGNATURES

Include your professional email signature on all emails, from any device.

CENTRALISED MANAGEMENT

Control all email signatures from one central administration dashboard.

COMPLETE CREATIVE CONTROL

Begin with a template, or start completely from scratch.

**Crossware Mail Signature integrates with:
Microsoft Office 365, Exchange & HCL Domino**
